IMAGINING A DIGITAL ECONOMY FOR ALL: LEADERSHIP SERIES IS THIS COURSE FOR YOU?

The course is designed for professionals from the public and private sector who seek a grounding in understanding the nature, scope, and implications of the inclusive digitalized economy. This course could be used as part of onboarding of new staff and building ongoing knowledge and skills of existing personnel at all levels in any of the agencies or companies listed below.

Working Professionals Employed at:

- **The Public Sector:** National regulators and policy makers in ministries or agencies for ICT, Competition, financial sector, trade and commerce who oversee who oversee aspects of digital economy; and who participate in interagency and public-private dialogue.
- **The Private Sector:** Digital first companies (Big techs, e-commerce, fintech's including small and medium businesses) who want to understand how the bigger picture context affects them and to participate in national dialogue over digital economy strategy.

Additional Persona Who May Benefit:

- Consultants and researchers seeking a foundational understanding of the developments happening in the digital economy.
- Development agency staff seeking to understand or specialise in this area.
- Inclusion related FinTech's and other startups, capital providers - or those who want to stay in the good books of regulators.
- Students from various universities especially in target areas.

PREREQUISITES

None. Although prior completion of the Inclusive Digital Economic Development course is preferred.
